## **CAMPING, CARS & CARAVANS showed a detailed report about Camping Seeblick Toni in the February issue 2003**

**Record holder Camping Seeblick Toni: With 1.4 the  
best rating that the readers have given so far ...  
Camping Seeblick Toni received the so far best result  
since the introduction of this test in the magazine  
„Camping Cars & Caravans“.**

Since a long-time the large German caravan magazine „Camping, Cars & Caravans“ tested campsites across Europe by their readers in its section „CCC-readers-test“. The campsite is visited by at least 4 test groups - families, couples, single travellers. The test period was 14 days. In the February 2003 issue, a test is reported, with an average score of 1.4, the best result since the introduction of the reading test! It is Camping Seeblick Toni in Kramsach.

Camping Seeblick Toni was able to convince the testers in all test categories ( the pitches - the reception - the washhouses - the leisure offer - the restaurant - the camping market), which led to this extraordinary result.

With 1.4 the campsite is now record holder. Further information can be found in „Camping, Cars & Caravans“ (Dolde Medien Verlag GmbH) Edition 2/2003.
